### Buying Books

After school today, Jyun Jyun and I went to the new bookshop near our school to buy books.

In the children's corner there was a large variety of books, including story books, picture books, fables, and riddles. The books had beautiful pictures and interesting content. I bought a picture book called *The Magic Village*, and Jyun Jyun bought a story book about the scientist Newton.

I said to Jyun Jyun, "After reading the books, let's take turns telling each other stories, okay?"

"Okay, we can also exchange books and read them!" said Jyun Jyun with a happy smile.
