拔	bat6	to pull up, to pull out	
蘿蔔	lo4 baak6	carrot, radish	
奇妙	kei4 miu6	wonderful, marvelous	

There is a zoo in the sky

On Sunday, our family went on a trip to the zoo.

After watching all kinds of animals, we were rather tired, so we lay on the soft grass and looked at the blue sky and white clouds. The white clouds were drifting toward the sun. (It was) very beautiful.

“Look, the white clouds over there look a lot like running horses”, said Dad.

“This is a peacock spreading its tail,” said Mum, pointing at the cloud above her head.

“Look, the cloud has turned into a big white bear,” said Younger Sister.

I also discovered an amazing sight in the sky - a flock of little white rabbits pulling up carrots!

There is also a zoo in the sky, how wonderful!
